BARRICADES

Barricades

AL ORSOM (20.5.2025)

[Verse 1]

The walls are high but I still climb
Through the cracks I see the time
Your shadows dance on broken stone
I fight for light to call my own

[Chorus]

Barricades can't hold me down
I'll break through steel I'll take the crown
The fight is fierce but I'm alive
Through the flames I will survive

[Verse 2]

Every brick a story told
Of fear and power growing cold
But in my heart a fire burns
The tide will shift the wheel will turn

[Chorus]

Barricades can't hold me down
I'll break through steel I'll take the crown
The fight is fierce but I'm alive
Through the flames I will survive

[Bridge]

Hear the echoes of my name
Through the chaos through the pain
I won't kneel I won't retreat
Victory rises from defeat

[Chorus]

Barricades can't hold me down
I'll break through steel I'll take the crown
The fight is fierce but I'm alive
Through the flames I will survive

Through the flames I will survive
