

# THIRD UNIVERSE

## Point Nemo

AL ORSOM (4.5.2025)

### [Verse 1]

Out where the maps start to fade  
No lines no borders just waves we made  
A world that whispers and calls our name  
Point Nemo waits in its endless frame  
Stars above and the sea so deep  
No promises just secrets to keep  
Drifting far from the ties we know  
To a place where the wild winds blow

### [Chorus]

What if we went to Point Nemo  
Lost in the blue where no one will go  
Chasing the edge where dreams overflow  
What if we went to Point Nemo

### [Solo riff]

### [Verse 3]

The silence hums like a distant song  
A place where we've always belonged  
No clocks no chains no weight to hold  
Just the endless horizon painted in gold  
The sun sinks low the colors ignite  
A fire in the heart of the ocean's night  
Would you take my hand and just let go  
To the heart of the sea where no one will know

### [Chorus]

What if we went to Point Nemo  
Lost in the blue where no one will go  
Chasing the edge where dreams overflow  
What if we went to Point Nemo

### [Bridge]

The sun sinks low the colors ignite  
A fire in the heart of the ocean's night  
Would you take my hand and just let go  
To the heart of the sea where no one will know  
What if we went to Point Nemo  
Lost in the blue where no one will go  
Chasing the edge where dreams overflow  
What if we went to Point Nemo

### [Solo riff]

### [Tempo change]

### [Outro]

The sun sinks low the colors ignite
