

THIRD UNIVERSE

Third Universe

AL ORSOM (1.6.2025)

[Verse 1]

Who's gonna tell us where to start
Wonder what was before the big bang
What were we meant to do
When we got so much to lose

[Pre-Chorus]

Together we can fix it
Together we can solve it
Together we stand strong
Together we try doing nothing wrong

[Chorus]

Believe in this Third Universe
We can make all things right
A chance has been given to us
Don't we all go waste it

[Verse 2]

Do you believe in miracles
Well, what is it worth if ignored
More to come more to decline
These thoughts are all mine

[Pre-Chorus]

Together we can fix it
Together we can solve it
Together we stand strong
Together we try doing nothing wrong

[Chorus]

Believe in this Third Universe
We can make all things right
A chance has been given to us
Don't we all go waste it

[Solo]

[Pre-Chorus]

Together we can fix it
Together we can solve it
Together we stand strong
Together we try doing nothing wrong

[Chorus]

Believe in this Third Universe
We can make all things right
A chance has been given to us
Don't we all go waste it
