I REGRET

I Regret

by AL ORSOM

[1. Verse]

My life is changing again
Can't stop my feelings
I wanna make it up to you
Know I should have been there
and now I'm facing the truth
It's almost unbearable

[Chorus]

I Regret
That I didn't
stood up for you
I Regret
Should have held you
and kissed you

[2. Verse]

I'm standing small again
and facing the truth
I made a distance
couldn't break the silence
Could it ever be-
a path, just you and me
I'm longing for an answer
to ease my pain

[Chorus]

I Regret
That I didn't
stood up for you
I Regret
Should have held you
and kissed you

[Bridge]

I picture you and me in a different world
Where narrow thoughts and long regrets fade away

[Chorus x 2]

I Regret
That I didn't
stood up for you
I Regret
Should have held you
and kissed you

Could there ever be a path for you and me
