In My Heart

by AL ORSOM

[1. Verse]

I'm sittin' wonder where you are
You left me hanging 'got a scar
My life depends on who's to trust and who's
got lost
Along the way, now here me say

[2. Verse]

All of my heart is reaching out
I'm in love without a doubt
And I surely know my heart belongs to you,
let's make it clear
I need you here...

[Chorus]

You're in my heart
Though you're not here
You disappeared

my heart goes ballistic
every time you are near

[3. Verse]

As all these years are passing by
I wonder why we said goodbye
As you invited me to dance, and took the
chance
I surely hoped that it would last

[4. Verse]

I've got my mind all trapped on you
And planned all things that we should do
You made me feel so insecure, my love for you
are true and strong ---don't get me wrong

[Chorus]

You're in my heart
Though you're not here
You disappeared

You're in my heart
