Words

AL ORSOM

[1. Verse]

I see you standing in the fading light
But I don't know what to say tonight
Every heartbeat echoes through my mind

[Pre-Chorus]

If I could show you what I feel inside
Maybe then I wouldn't have to hide

[Chorus]

Words, falling through the air
Trying to tell you that I care
But they fade before they reach your heart
And leave me standing in the dark

[2. Verse]

Every glance you give just pulls me in
Like a game I know I'll never win
Still I stand here frozen by your side
With a thousand things I try to hide

[Pre-Chorus]

If I could show you what I feel inside
Maybe then I wouldn't have to hide

[Chorus]

Words, falling through the air
Trying to tell you that I care
But they fade before they reach your heart
And leave me standing in the dark

[Bridge]

If I could turn these words to something real
Something you could touch and feel
But all I have is what I say
And it slips and drifts away

[Chorus (x2)]

Words, falling through the air
Trying to tell you that I care
But they fade before they reach your heart
And leave me standing in the dark
