[Verse 1]
This room seems quiet now
Shadows fading out
Broken frames remain
Only filled with doubt

[Pre-Chorus]
Promises turned cold
Dreams slipped away
Hope becomes dust
And we still wonder why

[Chorus]
This is our final swansong
Our last goodbye
No more second chances
No more asking why

[Bridge]
I gave you my heart
My light, my scars
Now silence shines brighter
Than the clearest shining star

[Chorus laid-back]
This is our final swansong
Our last goodbye
No more second chances
No more asking why

[Verse 2]
We danced through the night
Till the music ends
Now you're a stranger
Couldn’t make amends

[Pre-Chorus]
Promises turned cold
Dreams slipped away
Hope becomes dust
And we still wonder why

[Final Chorus]
This is our final swansong
Our last goodbye
No more second chances
No more asking why

[Outro]
Into the night
I whisper goodbye
